Features of Pager in Compose

• Lazy Composition

• Offscreen page loading

• Specific item Scroll

• Page change state callbacks

Basic Horizontal Pager

```kotlin
// Display 10 items

HorizontalPager(pageCount = 10) { page ->

    // Our page content

    Text(

        text = "Page: $page",

        modifier = Modifier.fillMaxWidth()

    )

}
```

Basic Vertical Pager

```
// Display 10 items

VerticalPager(pageCount = 10) { page ->

    // Our page content

    Text(

        text = "Page: $page",

        modifier = Modifier.fillMaxWidth()

    )

}
```
